Technology Tools for the Digital Teacher
Online Participant Syllabus

Course Description
Educators will become skilled on how to use digital resources to collaborate, create, communicate, and assess students. Participants will gain an understanding of internet resources to create an online classroom (using a web-based learning management system), flipped classroom and screen-casting, formative assessments, eBooks, videos, communication options for students and parents, and more to maximize the learning environment and reach students through different learning mediums.

Course Prerequisites
Participant must hold a baccalaureate degree.

System Requirements
This is specific for technology or online course.
- Computer with word processing software
- Internet access connection
- Software capable of reading PDF files
- Software capable of viewing PowerPoint presentations

Text Books/Supplemental Reading
No textbook is required for this course. Critical reading of assigned articles and supplementary materials is embedded throughout the course. Assigned and recommended readings are listed in each milestone.

Global Goals of the Course
To deepen and/or apply the content and skills of the teacher’s existing professional knowledge base by meeting the following global goals of the course:

1. To design and develop 21st century skills across curriculums (NBPTS 1-2; ISTE (International Standard for Technology in Education) 1)
2. To appraise key technological tools and online resources and strategies for their impact on teaching and learning (NBPTS 1, 2, 3, 5; ISTE 2, 3)
3. To employ emerging technology tools and world-wide-web resources to design, develop, and evaluate relevant experiences for students (NBPTS 1, 2, 3, 4, 5)
4. To employ other educational professionals to improve student learning through the use of digital resources in the classroom (NBPTS 5; ISTE 5;10;
5. To demonstrate proficient knowledge of skills and concepts related to digital resources and their integration into the classroom to enhance create learning experiences for students (NBPTS 1-5; ISTE 1-4; 5, 6;)

**Instructional Objectives**
By the conclusion of the course, each participant should be able to do the following:

1. Explore and examine basic features of several LMS platforms
   1.1 Understand the role of a learning management system in your classroom
   1.2 Explore the features of Schoology, Google Classroom, Edmodo, and Canvas
   1.3 Identify personal classroom use of a LMS platform

2. Examine and utilize apps and web resources to improve communication to parents and students:
   2.1 Explore models/methods of communication in a variety of LMS platforms
   2.2 Explore web resources such as REMIND, BLOOMZ, and School Circle to connect to students and parents
   2.3 Explore the app Teacher Kit
   2.4 Perform basic operation of a digital communication tool with your class

3. Examine and explore web resources to improve student collaboration
   3.1 Explore the apps Diigo, Cue Think, Class Craft, Mural, and Group Maker
   3.2 Develop lesson plans built around a digital collaboration tool
   3.3 Assess pros/cons of a variety of digital collaboration tools

4. Examine and utilize apps and digital resources to create ebooks, journals, and class textbooks
   4.1 Explore the following apps and web resources: Easy Book Creator, Story Bird, Story Jumper, Book Creator
   4.2 Explore apps/websites that focus on journaling
   4.3 Explore and demonstrate book editing capabilities in a selected app
   4.4 Learn about book lesson plan options in a variety of content areas

5. Examine and utilize the online digital resources and a variety of apps to create videos in the classroom to improve student learning
   5.1 Learn about apps that can create videos in the classroom
   5.2 Appraise methods of videos use in the classroom
   5.3 Explore and evaluate lessons that use videos
   5.4 Explore and evaluate websites that share tips and “tricks” of video use in the classroom

6. Examine and utilize apps and online resources to screencast and enhance classroom lessons and improve student learning
6.1 Explore and evaluate apps and digital resources that can screencast
6.2 Explore and evaluate websites that discuss screencasting methods
6.3 Identify and explain strategies for the flipped classroom

7. Examine and utilize digital resources and apps that provide classroom
assessment options for the educator’s content area to enhance student learning
7.1 Explore and evaluate apps and digital resources related to
assessment
7.2 Explore and examine Kahoot, PearDeck, EdPuzzle, Seesaw,
ClassKick, Exit Ticket, and GoFormative.
7.3 Discuss instructional design with assessment apps
7.4 Analyze and evaluate other online assessment options

8. Examine and explore uses of social media in the classroom to enhance delivery
and promote student learning
8.1 Explore, evaluate, and utilize Facebook, Twitter, Instagram as
learning mediums in the classroom
8.2 Discuss the pros and cons of a social media in the classroom

Teaching Methodology and Delivery Model
Teaching methodologies used in this course are specifically designed to maximize
learning in a guided, graduate-level, online distance-learning model. Each course
facilitator is trained and/or experienced in facilitating graduate-level online courses as
well as the specific content and skills of this course.

1. Online methodologies include instructor/expert presentations, directed skill practice,
asynchronous class and group discussions using threaded discussion questions, peer
evaluation, self-evaluation, portfolio development, and the synthesis of new
knowledge and skills in designing grade-specific lesson plans or other educational
applications of knowledge and skills.

2. The course is taught in a supportive learning environment with teacher-participant
interaction and feedback. Class participants interact with other professionals via the
Forum by replying to existing posts as well as creating new threads on topics of
their choice.

3. Content focuses on the presentation of advanced concepts linked to instructional
strategies which accommodate learning needs of a diverse student population.

4. Course content, activities, and assignments are organized into “milestones” that
participants complete during the 8-week span of the course. Course content is
intended to cover material equal to 45 seat hours of instructional time.

5. Class participants actively construct their own learning and make it personally
relevant by acquiring and applying course knowledge/skills to their own teaching
situation.

Learning Assessment
Formative assessment of learning objectives for this course is conducted informally
throughout the course via discussion, critiques, peer- and self-evaluations, journal
entries, instructor feedback, small-group sharing and activities requiring participants to make sense of new knowledge and/or skills within their realm of teaching. Additionally, three formative assessments are embedded within the course. Summative assessment for the course occurs in the form of a final project which requires each participant to synthesize class content and apply it within the teacher’s specific teaching environment.

**Final Projects**

In keeping with best instructional and assessment practices, this course requires participants to demonstrate synthesis and application of course knowledge in an applied final project linked to the instructional objectives of this course. Assessment of the project should not be limited to the quantity of work submitted but should carefully consider the quality and intellectual value of the work.

Participants taking courses for professional development unit (not-for-credit) must follow the same Participation Expectations as posted in the course syllabus. Participants will complete readings and tasks as outlined in the Task List. Forum Postings are also required. However, participants will be exempt from completing the Formative and Summative assignments unless otherwise noted. Proof of seat hours will be presented to the participants after completing the state required course evaluation located on the student portal.

Final projects are due and will be submitted to the instructor within the 8 weeks of the allotted class time. Unless the instructor states otherwise, all papers are expected to be properly formatted electronically.

**Assessment and Grading**

Throughout the course, participants will engage in both formal and informal formative and summative assessments. Points are assigned based on a four-point criterion rubric specifically delineated for each assessment that can be further defined as follows:

**Distinguished:** The assessment is highly imaginative; demonstrates critical thought; is unique; shows substantial application to one’s own teaching or professional position; *goes above and beyond requirements*; is creative; demonstrates both breadth and depth of knowledge of transition-related subject matter; shows individual’s personality; is professional in presentation and appearance; and demonstrates considerable effort. The assessment is exceptionally completed and demonstrates clear understanding of the tasks, gives explanations, and shows how the assessment applies to a teaching/learning situation. The assessment meets the specific criteria delineated in “Distinguished” on the course rubric.

**Proficient:** The assessment is well-organized and complete; is effectively and clearly presented; demonstrates clear understandings; applies what has been learned to the author’s own classroom situation; clearly shows connections; is detailed; and is thoughtful and supported with ideas. A thoroughly completed assessment demonstrates
that the participant shows awareness of the tasks, gives explanations, and shows how the assessment applies to a teaching/learning situation. The assessment meets the specific criteria delineated in “Proficient” on the course rubric.

**Basic:** This is the lowest passing grade. The assessment meets minimum requirements; includes general information but lacks descriptive detail; shows limited application to teaching/learning; and lacks originality. This denotes work that does not meet all aspects of standards for academic performance in a graduate-level course. The assessment meets the specific criteria delineated in “Basic” on the course rubric.

**Unsatisfactory:** The assessment is missing evidence or information; is sloppy and poorly organized; demonstrates only surface understandings; shows no evidence of application to the author’s own teaching situation; is poorly written; and does not meet minimum standards for academic performance in a graduate-level course. The assessment meets the specific criteria delineated in “Unsatisfactory” on the course rubric.

The assessments for this course are weighted as follows:

- Participation and Reflection 30%
- Formative Assessments 30%
- Summative Assessments 40%

**Academic Honesty and Integrity**
All participants are expected to maintain academic honesty and integrity by doing their own work to the best of their ability. Academic dishonesty (cheating, fabrication, plagiarism, etc.) will result in the participant receiving a zero for that assignment or paper.

**Americans with Disabilities Act Compliance**
In compliance with Section 504 of the Rehabilitation Act and The Americans with Disabilities Act, participants who have any condition, either permanent or temporary, which might affect their ability to perform in this class are encouraged to inform the instructor at the beginning of the first session. Reasonable academic accommodations, aids, and adjustments may be made as needed to provide for equitable participation.

**Attendance**
Participants will have 8 weeks from the time of their first date of login to complete the course. It is the expectation that participants will post initial responses to Forum discussion questions by Thursdays. In addition, participants are to respond to at least two other participant posts by Sundays. Projects are only due in specific Milestones. Forum postings, assignments, and assessments must be completed by due dates specified within the course.
Late Work and Make-Up Policy
Participants are expected to keep pace with assignments and expectations. If a situation arises in which an assignment cannot be completed, the participant is expected to make arrangements with the instructor for the timely submission of such work. Failure to complete all work in this time frame will result in an incomplete or a grade of F for the work, depending on the reason for the delay.

University Compliance
Course content and instruction are bound by policies associated with the university granting academic credit for the course. Such policies include, but are not limited to: academic integrity and honor codes, institutional objectives and grade grievance procedures. These policies are located within the official academic catalogs which can be accessed through the university’s official website.

Alignment to the Danielson Framework for Effective Teaching
The Danielson Framework for Effective Teaching is designed to provide educators with a structure for analyzing and assessing teacher practice and in constructing techniques to strengthen that practice.

Compliance with National Board of Professional Teaching Standards (NBPTS)
The NBPTS represents the highest level of professional achievement in the continuum of teacher professional development.

Compliance with Council for the Accreditation of Educator Preparation
CAEP advances excellent educator preparation through evidence-based accreditation that assures quality and supports continuous improvement to strengthen P-12 student learning.
